

Please do not allow Hollywood to dictate what the government does. The Broadcast flag will not prevent piracy of copyrighted digital material. Once one copy gets out on the internet, in a matter of hours everyone with a computer can have access to it. Do not limit my rights in the hopes of appeasing Hollywood. I frequently copy songs from several purchased CDs and burn them on to another one for the long road trips that I take. Changing a CD while driving is a hazard. I see nothing wrong with my taping a movie from Cable that I pay for and playing it at another time. These should not be made illegal. If I pay for it, I should have the right to do what I wish with it for my own personal use and so should you and your children.
